

Strategic Workshop for School Leaders

Build your future-ready vision into an actionable plan.

Step into the future of education with this **Strategic Workshop for School Leaders**. This immersive program is designed exclusively for school leaders and executives who are ready to align their learning environments through a future lens.

Guided by the experienced team at The Learning Future, the program seeks to empower leaders to create clear, actionable plan that transforms their vision into a powerful, future-ready learning environment.

Participants will explore strategic approaches to spatial design that support deeper learning, collaboration, and adaptability and through hands-on sessions, co-create actionable plans, leverage innovative tools, and leave with a comprehensive educational brief.

INCLUSIONS:

- **Two Days/ 4x three-hour sessions of Professional Development** – Experience immersive professional learning at your school, tailored to align with your team's vision and goals.
- **Comprehensive Observations and Analysis** Initial on-site observations and expert feedback on current learning environments to inform spatial design.
- **Four Ongoing Coaching Sessions** – Receive follow-up support to refine practices, embed learning, and ensure sustained growth in your teaching and learning environment.
- **Scenario Planning and Implementation Guide** Practical guidance for phased implementation, ensuring the smooth transition from vision to reality.
- ***Ongoing Partnership available**
